

Two PureGrade Liquid Starters to Choose From:

GoldStart is a low-salt plant food high in orthophosphates. It can be safely banded in-furrow during planting or foliar applied.

Available in these popular grades: 9-18-9, 6-24-6, 5-15-15, 3-18-18, 10-10-10 and custom blends

Diamond is a low-salt plant food that is 100% orthophosphate. It can be safely banded in-furrow during planting or foliar applied.

Available in these popular grades: 9-18-9, 3-18-18, 5-15-15, 10-10-10 and custom blends.

PureGrade Liquid Starters are User Friendly

- More accurate and uniform placement in or near the seed furrow than dry fertilizer.
- Non-corrosive. Saves replacing rusty planter parts.
- Excellent storability.
- Easy to use. Planter kits apply PureGrade accurately into the seed furrow.
- Nutrients are immediately available for plant use regardless of soil temperature.
- Easy to add and apply certain pesticides labeled for in-furrow application.
- Low salt index for maximum seed safety.

STARTER APPLIED

PureGrade Liquid Plant Food
Promotes Faster, Early Growth

PureGrade Liquid Plant Food is used in starter applications throughout the agriculture industry. PureGrade fertilizers have a low salt index, are chloride free and are virtually non-corrosive to application equipment.

- Quick uptake of available nutrients
- Lower potential for algae bloom than surface applied fertilizers
- Earlier uniform maturity
- Produces larger and more vigorous root systems
- Enhances early season growth
- High-quality yields
- INCREASES PROFIT!

APPLICATION RECOMMENDATIONS

Application Rate:

4 to 6 gallons per acre of PureGrade Liquid Plant Food.

Recommended Placement:

Apply in-furrow during direct drilling. May be diluted with water.

The PureGrade product line is a select group of low-salt, chloride-free liquid plant food grades that are high in orthophosphates and can be safely used in close proximity to the seed, roots and foliage for better fertilizer efficiency.

- × Faster establishment
- × Will not rust equipment
- × Improved health & quality
- × Increased profit

Nutrients are
**100% Soluble and
100% Available**

FOLIAR APPLIED

PureGrade Liquid Plant Food
Prevents Nutrient Deficiencies

Foliar apply Nutra-Flo PureGrade Liquid Plant Food to supplement soil-applied nutrients or to correct nutrient deficiencies. Only a small amount of fertilizer is required to get a quick plant response.

- Encourages additional tillering
- Improves nutritional health
- Better milling quality
- Improves test weight
- Promotes better head development
- Helps plants overcome stressful conditions
- High-quality yields
- Mixes with pesticides for efficient application (always check compatibility)
- INCREASES PROFIT!

APPLICATION RECOMMENDATIONS

Timing	Rate/A	Benefits
1-3rd Tiller	3-5 gal	Encourages additional tillering and overall nutritional health
Panicle Initiation	3-5 gal	Encourages head development
Anytime during environmental stresses	3-5 gal	Hastens recovery from stress
